# Foreign Ownership of U.S. Agricultural Land

Through February 28, 2004

Foreign Ownership of U.S. Agricultural Land through February 28, 2004, by the Farm Service Agency, U.S. Department of Agriculture.

#### Abstract

Foreign persons owned 14.6 million acres of U.S. agricultural land as of February 28, 2004. This is slightly more than 1 percent of all privately held agricultural land and .65 percent of all land in the United States. These and other findings are based on an analysis of reports submitted in compliance with the Agricultural Foreign Investment Disclosure Act of 1978.

**Keywords:** Agricultural land, foreign landownership, land holdings.

## Preface

This is an interim report of foreign ownership of United States (U.S.) agricultural land information received and processed through February 28, 2004, under the Agricultural Foreign Investment Disclosure Act of 1978. The U.S. Department of Agriculture, Farm Service Agency is developing a new reporting system. An interim reporting system will be used until the development is complete.

## Summary

Foreign persons owned 14.6 million acres of U.S. agricultural land (forest land and farmland) as of February 28, 2004. This is a decrease of 243,911 acres from 2003, and only slightly more than 1 percent of all privately held agricultural land in the United States. These and other findings are based on information submitted to the U.S. Department of Agriculture in compliance with the Agricultural Foreign Investment Disclosure Act of 1978. Forest land accounted for 48 percent of all foreign-owned acreage, cropland for 17 percent, pasture and other agricultural land for 35 percent.

Foreign ownership of U.S. agricultural land has remained relatively steady since 1993, slightly above or below 1 percent of all privately owned agricultural land in the United States.

# Foreign Ownership Of U.S. Agricultural Land Through February 28, 2004

Patricia A. Blevins  
Delores Smith\*

## Introduction

Foreign individuals and entities reported owning 14.6 million acres of U.S. agricultural land as of February 28, 2004. This is slightly more than 1 percent of all privately owned U.S. agricultural land and approximately .65 percent of all land in the United States (Fig. 2).

## Summary of the Act and Regulations

The Agricultural Foreign Investment Disclosure Act of 1978 (AFIDA),<sup>1</sup> as implemented by the regulations,<sup>2</sup> required all foreign persons holding agricultural land as of February 01, 1979, to file a report of such holdings with the Secretary of Agriculture by August 01, 1979. All foreign persons who acquire or transfer agricultural land thereafter are required to report such transactions within 90 days of the date of acquisition or transfer. In addition, any foreign person who holds land that subsequently becomes or ceases to be agricultural land or any person who holds agricultural land who subsequently becomes or ceases to be a foreign person must also file a report within 90 days of such change.

AFIDA specifies in detail the information to be supplied by the foreign person and provides that necessary additional information may be obtained by the Secretary. The information required to be reported consists of the legal name and address of the foreign person; citizenship, if an individual; if not an individual or a government, nature of the legal entity, including the entity's country of creation and principal place of business; type of interest; legal description; acreage; land use; purchase price or any other consideration given; intended use; where applicable, information about the representative of the foreign person; how the interest in the land was transferred; the relationship of the owner to the operator; type of rental agreement, if any; and the date the interest in the land was transferred. In the case of a disposition, the party disposing of the interest is also required to give the legal name and address of the purchaser. Any change in the legal name or address of the foreign person and other entities disclosed on the report form must also be reported within 90 days of such changes. Failure to comply with the AFIDA subjects the foreign owner to a possible civil penalty of up to 25 percent of the fair market value of the interest held in the land in question.

In accordance with Section 7 of the act, completed report forms are available for public inspection in Washington, DC, within 10 days of receipt by the Secretary. Section 6 of the act requires that every 6 months the Secretary transmit to each State copies of completed report forms for foreign-owned agricultural land in that State.

## Definitions

For this report, the term "holdings" applies to all U.S. agricultural land owned by foreign persons as of February 28, 2004. This term is used as the title for a subsequent section, which analyzes the reported data.

"Agricultural Land" is defined in the act as all land in the United States used for forestry production. Land used for forestry production means land exceeding 10 acres in size in which 10 percent is stocked by trees of any size including land that formerly had such tree cover and will be naturally or artificially regenerated. The regulations further define agricultural land as all land used for farming, ranching, or timber production if the tracts are more than 10 acres in size in the aggregate. Land which is currently idle, but last used within the past 5 years for farming, ranching, or timber production must also be reported. Tracts totaling 10 acres or less in the aggregate which produce annual gross receipts in excess of \$1,000 from the sale of the farm, ranch, forestry or timber products must also be reported.

AFIDA requires reporting "any interest" in the land other than a security interest (a mortgage or other debt-securing instrument). The regulations exempt leaseholds of less than 10 years' duration, contingent future interests, noncontingent future interests that do not become possessory upon termination of the present estate, nonagricultural easements and rights-of-way, and interests solely in mineral rights.

A "foreign person," as defined in the act, includes any individual who: (1) is not a citizen or national of the United States, (2) is not a citizen of the Northern Mariana Islands or the Trust Territory of the Pacific Islands, or (3) is not lawfully admitted into the United States for permanent residence. Any person who holds an Immigration and Naturalization Service "Alien Registration Receipt Card" (green card) is considered lawfully admitted for permanent residence and is exempt from the requirements of the act. Foreign governments, entities which are created under the laws of or have their principal place of business in a foreign country, and U.S. entities in which there is a significant foreign interest or substantial control are also defined as foreign persons under the act.

For this study, individuals are defined as one person or a husband and wife. The "partnership" category includes all legally defined partnerships, joint ventures, and tenancies in common that include two or more persons who are not married. The term partnership does not differentiate between joint tenancies and tenancies in common. In the interest of simplicity and brevity, fine legal distinctions, however important in an individual case, are ignored.

Each foreign entity holding land is required to file a report. Therefore, if two individuals own land as a partnership, the partnership is to file one report as a partnership, with the partners' names, addresses and citizenship listed on the back of the form. Occasionally, however, two people will file as individuals, each filing a separate report on the same land with a partial interest of, for example, 49 percent listed on each form. Because it is not always possible to distinguish separate reports for the same land, two such individuals cannot be differentiated from one partnership. This may occur when there is no legal partnership but individuals own the land as tenants in common. If they file together on one form, they are automatically considered a partnership. If they file separately, they are generally considered individuals. Therefore, the data on the number of reported parcels should be used with caution.

## **Definitions (Continued)**

The act is designed to impute foreign person status to certain U.S. entities holding direct and indirect interests in U.S. agricultural land. For purposes of the act, this is accomplished by defining each successive link in a chain of U.S. entities containing foreign interests as a foreign person. However, only the foreign person who actually holds the direct (title) interest in the land (that is, the first layer or tier) is considered the reporting entity. This entity need not actually be foreign, but under the act, it is deemed a foreign person because another foreign person holds a significant interest or substantial control in it. In some instances, the second tier also may not actually be foreign, but may be deemed foreign under the act for the same reason. The regulations define "significant interest or substantial control" to mean a 10-percent or more interest in the entity if held by a single foreign person or a group of foreign persons acting in concert, or a 50-percent or more interest if held by a group of foreign persons not acting in concert, none of whom individually holds a 10-percent or greater interest in that entity. Under the regulations, the reporting entity (other than an individual or government), whether domestic or foreign, is required to provide information (names, addresses, citizenship, and the nature of the entity, if any) on the second-tier investments; that is, all foreign persons holding a significant interest or substantial control in the reporting entity. In turn, a second-tier entity may be required to provide information about foreign persons who hold a significant interest or substantial control in that entity.

When the foreign person is an individual from, or an entity created under the laws of, for example, Germany, the report is processed as "Germany." Where persons from many different countries hold direct and indirect interests in one piece of land, an attempt is made to identify the predominant country as the country of origin. When there is no predominant country, for example, an equal partnership between a Canadian and a German, the report is processed as a multiple foreign owner with no predominant country.

U.S. agricultural land owned by a U.S. entity deemed a foreign person under the act (the party legally responsible for providing the information required by the act) is reported from the standpoint of the U.S. entity rather than that of the foreign shareholder.

The AFIDA procedures provide for land to be reported by parcels. All land held in the same manner (type of interest), located in one county, and acquired at the same time, is considered a parcel and is to be reported on a single form. Land does not have to be adjacent to be considered part of one parcel. This parcel concept is intended to ease the reporting burden.

All parcels (and acres) for each owner have been combined under each owner. Therefore, the number of owners is less than the number of parcels. However, because owners do not always report their names in exactly the same way on each form, it is difficult to attribute these forms with great precision to one person or legal entity. Some foreign persons hold land in their own names and also hold interests in entities that own other lands. These entities are treated as separate owners.

## **Analysis of Data Reported Under the Act**

### **Holdings**

Data in this section are derived from the reports filed by foreign persons who held U.S. land as of February 28, 2004. The 2004 total acres of foreign owned U.S. land are 15,131,834. The total agricultural acres are 14,639,190. The total acres of foreign owned U.S. land in 2003 was 15,376,893 which results in a decrease of 245,059 between 2003 and 2004.

### **Concentration of Foreign Ownership of U.S. Agricultural Land**

Foreign persons have reported acreage holdings in all 50 States and Puerto Rico (report 1 and fig. 1). Except for Maine (described below), only a small percentage of privately held agricultural land in the other 49 States is foreign owned (report 1). Maine acreage aside, foreign investment in U.S. agricultural land is concentrated in the South and West.

Maine has the largest amount of foreign-owned U.S. agricultural land, 3,153,938 acres, or 18 percent of the privately owned agricultural land in the State and approximately 22 percent of the reported foreign-owned agricultural land in the United States. The majority of the foreign owned agricultural land in Maine consists of forest or timber land which is 3,110,982 acres. Five Canadian companies own 2,866,876 acres of forest or timber and of the five companies, three are subsidiaries of the same parent company and own 2,095,473 acres, the fourth company owns 526,541 acres and the fifth company owns 244,862 acres.

Hawaii (8.4 %), Arizona (4.1 %) and Nevada (5.4%) have the next largest proportions of reported foreign-owned agricultural land to all privately owned agricultural land in their States. Texas has the second largest amount of foreign-owned acreage, 1,283,087 acres, but that represents a little less than 1 percent of the privately owned agricultural land in Texas.

### **Country of Origin.**

Of the 15,131,834 acres of reported foreign-held land, foreign persons from Canada own the largest amount of reported foreign-held acres of U.S. land, 4,528,100 acres, or 30 percent. Foreign persons from an additional three countries, Germany at 12 %, the United Kingdom (U.K.) at 11 %, and Switzerland at 4 %, collectively own 4,046,766 acres or 27 percent of the foreign-held acres of U.S.

### **Land Use**

Forty-six percent of the reported foreign-owned holdings of land is timber or forest land (Report 3); cropland accounts for only 16 percent. Foreign owned pasture, and other agricultural land total 34 percent of all foreign-owned holdings in the United States. The non-agriculture category accounts for 3 percent of the reported foreign-held acres. Nonagricultural land includes acreage such as the homestead and roads commonly reported as part of the agricultural landholding or land that is idle now but its last use within the past 5 years was for agriculture. These land-use figures should be used with caution because they reflect only information received at the time of processing and do not account for changes in land use that may have occurred subsequent to processing.

## **Trends**

The AFIDA reporting requirements allow foreign persons 90 days to report their transactions to the U.S. Department of Agriculture (USDA) but, not all transactions occurring in the 90 days preceding the closing date of the report are reported to USDA by that date. In some situations, reports are filed late and/or may be incomplete. This means that the 2003 data and, in some cases, data for prior years are understated and should be regarded as preliminary.

Foreign ownership of U.S. agricultural land remained relatively steady from 1993 through 2003, slightly above or below 1 percent of all privately owned agricultural land in the United States (fig. 3). Most changes were in forest land, decreasing from 7.5 million in 1995, to 6 million in 1998, increasing to 7.5 million in 2001, then decreasing to 7 million acres in 2002 and subsequent years. These changes are mainly due to million-acre-plus transactions by large timber companies. Reviewing the crop, pasture, and other agriculture figures reveals a relatively small increase, if any, in the numbers between 1993 and 2003. Cropland increased from 2.5 million acres in 2001 to 3 million in 2002, decreased to 2.5 million in 2003; pasture and other agriculture remained steady.
