### USDA Extends Application Deadline for Dairy Margin Protection Program to Dec. 19

Dairy producers urged to act now to protect their businesses against unpredictable market swings, take advantage of increased protections offered in first year of program

The application deadline for the dairy Margin Protection Program (MPP) will be extended until Dec. 19, 2014. The program, established by the 2014 Farm Bill, protects participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below levels of protection selected by the applicant.

For just \$100, a farmer can cover 90 percent of production at \$4 margin swings, and with affordable incremental premiums, dairy farmers can cover up to \$8 margin swings. Those who apply this year will receive a slight increase in production protection that will not be available in the future. Farmers who do not sign up for the Margin Protection Program for 2015 will forfeit the 1 percent base production increase.

Producers can use the online Web resource at [www.fsa.usda.gov/mpptool](http://www.fsa.usda.gov/mpptool) to calculate the best levels of coverage for their dairy operation. They can type in specific operation data and explore price projections and market scenarios to determine what level of coverage is best for them. The online resource is on a

Office for questions specific to your operation or county.

secure website that can be accessed from computers, mobile phones or tablets, 24 hours a day, seven days a week.

Farmers also have a chance to share comments and help shape the Margin Protection Program for the future. Last month, the U.S. Department of Agriculture (USDA) announced the extension of the opportunity for public comments on both the Margin Protection Program and the Dairy Product Donation Program until Dec. 15, 2014. Comments can be submitted to USDA via the [regulations.gov](http://regulations.gov) website at <http://go.usa.gov/GJSA> or send them by mail to: Danielle Cooke, Special Programs Manager, Price Support Division, FSA, USDA, STOP 0512, 1400 Independence Ave. SW, Washington, D.C., 20250-0512.

To learn more about the Margin Protection Program for dairy, contact your local USDA Farm Service Agency county office at [offices.usda.gov](http://offices.usda.gov) or visit us on the Web at [www.fsa.usda.gov](http://www.fsa.usda.gov).

## **USDA Disaster Assistance to Help Thousands of Honeybee, Livestock and Farm-Raised Fish Producers**

*2014 Farm Bill Program Offers Producers in Over 40 States Relief for 2012 and 2013 Losses*

Nearly 2,500 applicants will receive disaster assistance through the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP) for losses suffered from Oct. 1, 2011, through Sept. 30, 2013.

The program, re-authorized by the 2014 Farm Bill, provides disaster relief to livestock, honeybee, and farm-raised fish producers not covered by other agricultural disaster assistance programs. Eligible losses may include excessive heat or winds, flooding, blizzards, hail, wildfires, lightning strikes, volcanic eruptions, and diseases, or in the case of honeybees, losses due to colony collapse disorder. Beekeepers, most of whom suffered honeybee colony losses, represent more than half of ELAP recipients.

The Farm Bill caps ELAP disaster funding at \$20 million per federal fiscal year. To accommodate the number of requests, which exceeded funds available for each of the affected years, payments will be reduced to ensure that all eligible applicants receive a prorated share of assistance.

The following ELAP Fact Sheets (by topic) are available online:

- ELAP for Farm-Raised Fish Fact Sheet
- ELAP for Livestock Fact Sheet
- ELAP for Honeybees Fact Sheet

To view these and other FSA program fact sheets, visit the FSA fact sheet web page at [www.fsa.usda.gov/factsheets](http://www.fsa.usda.gov/factsheets).

For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app>.

## Coverage Selection for New 2014 Farm Bill Safety Net Programs Began Nov. 17

*Producers have Until March 31, 2015, to Choose the Program Best for their Operation*

Farm owners and producers are reminded that the opportunity to choose between the new 2014 Farm Bill established programs, Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC), began Nov. 17, 2014, and continues through March 31, 2015. The new programs, designed to help producers better manage risk, usher in one of the most significant reforms to U.S. farm programs in decades.

USDA helped create online tools to assist in the decision process, allowing farm owners and producers to enter information about their operation and see projections that show what ARC and/or PLC will mean for them under possible future scenarios. Farm owners and producers can access the online resources, available at [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc), from the convenience of their home computer or mobile device at any time.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity.

Dates associated with ARC and PLC that farm owners and producers need to know:

- Now through Feb. 27, 2015: Farm owners may visit their local Farm Service Agency office to update yield history and/or reallocate base acres.
- Nov. 17, 2014 to March 31, 2015: Producers make a one-time election between ARC and PLC for the 2014 through 2018 crop years.
- Mid-April 2015 through summer 2015: Producers sign contracts for 2014 and 2015 crop years.
- October 2015: Payments issued for 2014 crop year, if needed.

To learn more about which safety net options are most appropriate for specific farming operations, farmers can use new Web tools at [www.fsa.usda.gov/arc-plc](http://www.fsa.usda.gov/arc-plc), which can be accessed from the convenience of a home computer or a mobile device at any time. To learn more about upcoming educational meetings, farmers can contact their local Farm Service Agency county office at <http://offices.sc.egov.usda.gov/locator/app>.

## Farm Bill Allows Early Termination for Certain CRP Contracts

The Farm Service Agency reminds producers with acres under contract through the Conservation Reserve Program (CRP) that they can apply for early contract termination, as required by the 2014 Farm Bill. The deadline to request early CRP contract termination is Jan. 30, 2015.

This is a unique opportunity to request early termination afforded by the 2014 Farm Bill. The earliest effective date for this early termination is October 1, 2014. The requesting CRP contract must have been in effect for at least five years and additional eligibility conditions must be met to qualify. The 2014 Farm Bill identifies a list of 10 exceptions whereby land will not be eligible for the early termination provisions. For a complete list of these exceptions, please view the program fact sheet online at [http://www.fsa.usda.gov/Internet/FSA\\_File/crp\\_opt\\_out\\_fact\\_sht.pdf](http://www.fsa.usda.gov/Internet/FSA_File/crp_opt_out_fact_sht.pdf)

Once a CRP contract termination request is approved by the FSA County Committee, the decision may not be reversed and the terminated contract will not be reinstated. Once the land is no longer considered under the CRP contract all participants must meet HEL/WC and other conservation compliance provisions for all associated lands.

For more information or to verify eligibility for early termination (opt-out) for existing CRP contracts, please contact your local FSA office. For local FSA Service Center contact information, please visit:

## USDA Farm Service Agency (FSA) Announces Online Hay and Grazing Acres Locator Tool

For many years, FSA's **Hay Net** website [www.fsa.usda.gov/haynet](http://www.fsa.usda.gov/haynet) has been the "go to" online resource for agricultural producers to list information concerning the need for hay or the availability of hay.

Now, in response to requests from livestock producers and landowners, FSA has expanded the site to include the option to list a need for grazing acres or to list acres available for grazing.

If, due to extenuating circumstances, producers are in need of hay and/or grazing acres to support livestock, please use **Hay Net** to post an advertisement seeking these resources. Likewise, landowners who have hay and/or grazing acres available for livestock producers should post a Hay Net advertisement as well.

A few things to remember when using the **Hay Net** website:

- There is a one-time registration process that should be completed by all users who want to post an ad online.
- Users who just want to browse ads DO NOT NEED to have an eAuthentication user id.
- Hay and grazing acre ads will be automatically removed after a period of 13 months.
- Please help your fellow farmer and rancher by keeping ads current and up to date and remove ads you no longer need or want advertised on **Hay Net**. Please, no corporate advertisements on this site.

**Hay Net** is brought to you by FSA as a public service. The sole purpose of this online resource is to provide a site for the exchange of information. FSA does not endorse, guarantee, or otherwise make representations of any kind regarding any user of this site and FSA is not responsible for defining the terms of grazing agreements or lease contracts.

For more information about **Hay Net** and other FSA services and programs, please contact your local FSA office. For local FSA Service Center contact information, please visit: <http://offices.sc.egov.usda.gov/locator/app>.

---

## Microloan Cap Grows to \$50,000

Farm Service Agency (FSA) reminds farmers and ranchers that the FSA borrowing limit for microloans increased from \$35,000 to \$50,000, effective Nov. 7. Microloans offer borrowers simplified lending with less paperwork.

The microloan change allows beginning, small and mid-sized farmers to access an additional \$15,000 in loans using a simplified application process with up to seven years to repay. Microloans are part of USDA's continued commitment to [small and midsized farming operations](#).

To complement the microloan program additional changes to FSA eligibility requirements will enhance beginning farmers and ranchers access to land, a key barrier to entry level producers. FSA policies related to farm experience have changed so that other types of skills may be considered to meet the direct farming experience required for farm ownership loan eligibility. Operation or management of non-farm businesses, leadership positions while serving in the military or advanced education in an agricultural field will now count towards the experience applicants need to show when applying for farm ownership loans.

Since 2010, FSA has made a record amount of farm loans — more than 165,000 loans totaling nearly \$23 billion. More than 50 percent of USDA's farm loans now go to beginning farmers. In addition, FSA has increased its lending to socially-disadvantaged producers by nearly 50 percent

since 2010.

Please review the FSA [Microloan Program Fact Sheet](#) for program application, eligibility and related information.
