

UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency
Washington, DC 20250

Noninsured Crop Disaster Assistance Program for 2001 and Subsequent Years 1-NAP (Revision 1)	Amendment 89
---	---------------------

Approved by: Deputy Administrator, Farm Programs

Amendment Transmittal

A Overview

Subparagraphs 24.5 G, 600 B, 755 A, 776 A, 1463 A, and 1465 A have been amended to remove references to paragraphs that have been withdrawn.

Part 10, Sections 2 through 7 have been withdrawn and subparagraph 1463 B has been removed because all NAP software is now web-based and covered in Part 14.

Subparagraphs 1756 C and 1757 C have been amended to add a note about prevented planted fields.

Subparagraph 1757.5 D has been added to provide a list of grazed forage crops eligible for prevented planted.

Subparagraph 1771 B has been amended to add an updated example screen for special forage.

Subparagraphs 1771 C and D have been amended to add additional information for prevented planted to field descriptions.

Exhibit 9.5 has been amended to update the paragraph reference.

24.5 Transfer of NAP Coverage (Continued)

F Initiating a Transfer

To initiate a transfer of NAP coverage between producers, CCC-577 shall be filed for each transferee for **all** crops being transferred.

Note: For succeeding crop years, to continue coverage, a new application for coverage must be filed by the new owner or shareholder before the application closing date for the applicable crop.

See Exhibit 9 for:

- example of CCC-577
- instructions for completing CCC-577.

G Processing a Transfer

When a transfer of NAP coverage is approved by COC, County Offices shall submit, through the State Office:

- a written explanation about the nature and circumstances of the transfer
- signed copy of the original CCC-471

* * *

- signed copy of the manual CCC-577
- application closing dates for the crops to be transferred
- signed copy of FSA-578 (either farm or producer print, as applicable, according to subparagraph 151 B) for all crops having NAP transfer requested.

State Offices shall forward NAP transfer requests and supporting documentation to PECD, DAB using either of the following methods:

- FAX to 202-720-4941, ATTN: CDPS
- mail to:

USDA FSA PECD DAB ATTN: CDPS
STOP 0517
1400 INDEPENDENCE AVE SW
WASHINGTON DC 20250-0517.

The National Office shall review the required documentation for NAP transfer cases to determine compliance with current NAP transfer procedure. After a thorough review of the information provided, the National Office shall send a memorandum to the applicable State Office with a course of action.

24.5 Transfer of NAP Coverage (Continued)

G Processing a Transfer (Continued)

Upon receiving authorization from the National Office to process approved NAP transfer cases, State Offices shall:

- assist the County Office to cancel the initial CCC-471
- process authorized transfer of NAP coverage according to the NAP Reference Guide provided by the National Office on or about November 13, 2008.

Note: SED's shall ensure that a memorandum authorizing a transfer of NAP coverage is received from the National Office before State Offices initiate a NAP transfer process.

The fee associated to the original application for coverage will be used to initiate an application for coverage for the transferee. No additional fees will be collected if the original application for coverage was filed as a limited resource application.

If a transfer of NAP coverage is approved after the software is locked out for that year, County Offices shall follow paragraph 1315 to process NAP payments. In addition to the documentation required in paragraph 1315, each request submitted must include CCC-577 with a written explanation regarding the nature and circumstances of the transfer.

H Examples

The following are examples of situations when a transfer of NAP coverage can be used:

- land purchased or leased by a producer who does not have current NAP coverage for the crop when transfer is requested before a disaster

Example: Producer A owns and operates FSN 100 and has NAP coverage for green beans. Producer B has planted green beans but has no NAP coverage for green beans. Producer B buys FSN 100 from Producer A. CCC-577 can be used to transfer the coverage on FSN 100 for green beans from Producer A to Producer B but is limited to the land acquired through the sale or lease and must be initiated before a disaster.

Note: Production for the transferred acreage must be kept separate from other green beans harvested by Producer B. The loss is calculated only on the transferred acreage. To establish an approved yield for the transferred crop, follow Part 5 using the transferee's actual production history.

Part 9 Compliance Reviews**600 NAP Compliance Reviews****A Overview**

Compliance reviews for NAP are required to ensure the accuracy of the information provided by producers. Reviews will be required as determined by:

- the National Compliance Review list
- subparagraph B.

These reviews consist of:

- approved yields which are based on certified production records
- acreage reports.

B Additional Required Selections

Reviews that fall into 1 of the following categories are designated as required reviews:

- approved yield certified production where the approved yield is greater than 150 percent of the T-yield or adjusted T-yield, as applicable

* * *

- inspections for a unit or crop when the COC, DD, or STC has reason to believe that the:
 - producer's acreage or production report is inaccurate
 - production evidence submitted by the producer indicates that data is invalid or the reported production is unreasonable when compared to other units in the area.

600 NAP Compliance Reviews (Continued)

C Approved Yield Review Process

Contact the producers and request the production evidence to support any certified production on CCC-452. Verify the production evidence certified by a producer for the most recent 3 APH crop years. If the approved yield does not have any production certified, then no review of production evidence is required. Acres must be reviewed.

Example: A 2007 approved yield is selected for review. The producer certified production for 2003, 2004, 2005, and 2006. Request the producer to provide the production evidence for 2004 through 2006.

The production evidence provided by the producers must then be verified by the facility where the production was sold or stored.

When contacting elevators, organizations, or other facilities to verify production evidence, the County Office shall provide:

- specific information, including producer's name and address, and crop or crops
- the reason and explanation for information requested.

Note: Producers authorized the release of the information on CCC-452.

The approved yield historical acres planted should be verified against the FSA-578 record. If planted acres were determined in an APH crop year, that acreage must be loaded in the APH database.

The approved yield must be manually recalculated if there are any changes to the actual production for any APH crop year. Calculate the percentage difference for an approved yield by dividing the current year approved yield by the approved yield determined to be correct. The current year approved yield must be changed if the difference is more than 5 percent and cup procedures do not apply. If the change was 5 percent or less, make the correction for the following year.

--Follow paragraph 39 to calculate variance and determine ineligibility, if applicable. An-- approved yield record will be considered a discrepancy if the approved yield change is greater than 5 percent.

755 County Office National Crop Table Process**A County Office Action**

If the County Office is **authorized** to enter crop data, the County Office shall:

- access NCT according to subparagraph 751 C
- if a crop was never loaded, select “Add a new record” option according to subparagraph B
- enter all applicable county data for the crop, according to subparagraph 757 A, except for the price, prevented and unharvested factors, and the application closing date
- review the crop record
- correct all error messages, if applicable, according to subparagraph 757 B
- select the “View/Change” option according to subparagraph C to:
 - view/modify a crop record previously loaded
 - update crop data to calculate yields
 - set the “County Approval” flag to “Y”
- e-mail the State Office indicating that the “County Approval” flag has been set and the crop records are ready for State Office review and approval
- when approved by the State Office, print approved crop data according to paragraph 759 and maintain a report of approved records for the County Office.

* * *

Note: Maintain a copy of all supporting documentation for the crop.

--775 Units of Measure in NCT*A Updating the Units of Measure**

If the unit of measure is in barrels, boxes, bunches, bushels, cartons, containers, crates, or lugs, the State Office user **must** update the pounds per unit of measure when first adding the unit of measure to a crop in NCT.

Users **must** enter the number of pounds for the applicable crop code/crop abbreviation, crop type, intended use, and unit of measure. Only 1 unit of measure can be updated for a crop, crop type, and intended use. If users attempt to load a second unit of measure for the same crop, type, and intended use, the previous unit of measure will be overwritten.

If the unit of measure is “bunches”, zeroes will be accepted for pounds per unit of measure for the crop. Zeroes will **not** be accepted for pounds per unit of measure for crops with the unit of measure other than “bunches”.

Users can update the unit of measure when adding a new record or modifying a record (see subparagraph 777 B for entering the unit of measure when adding a new record or subparagraph 777 D for updating the unit of measure by modifying the record).

B Units of Measure Report

From the Main Menu, if users CLICK “**Reports**”, the Reports - Report Selection Screen will be displayed. State and County Offices can CLICK “**Unit of Measure Report**”, as displayed in subparagraph 781 F, to view pounds per unit of measure individually, for a crop, type, and intended use.--*

776 County Office NCT Process**A County Office Action**

If the County Office is **authorized** to enter crop data, the County Office shall:

- access NCT according to paragraph 771
- modify records that were either rolled over from the previous year crop NCT or added as shell records by the State Office
- review the crop record
- **CLICK “Search/Modify Records”** according to subparagraphs B and C to:
 - view records for any State or county
 - update historic yield data for a crop record previously loaded by the State Office
 - set the “County Approval” flag to “Y”
- e-mail the State Office indicating that the “County Approval” flag has been set and the crop records are ready for State Office review and approval
- when approved by the State Office, print approved crop data according to paragraph 781 D and maintain an Approved Crop Records Report for the County Office.

* * *

Note: Maintain a copy of **all** supporting documentation for the crop.

1113-1150 (Reserved)

Section 8 (Withdrawn--Amend. 42)

1151-1153 (Withdrawn--Amend. 42)

1154-1275 (Reserved)

1463 Required Documentation for State Office Review

A Documentation Required for Review

When County Offices are requesting assistance to load CCC-471's for any reason, CED's shall submit the following documentation to the State Office program specialist:

- a written explanation of the problem and request of specific action from the National Office
- a signed copy of CCC-471, manual or automated
- a copy of CCC-257, manual or automated.

Note: Do **not** use a different program code on CCC-257 to process NAP service fees when taking manual CCC-471's. Follow procedure in 3-FI when processing a manual CCC-257.

* * *

Note: Additional documentation is required according to subparagraph:

- 1466 A, if an incorrect crop or crop type was selected unless instructed to do so according to paragraph 1462
- 1466 B, if an incorrect producer was selected on CCC-471.

For transfers, one CCC-577 may be completed for **all** crops and crop types being transferred to a person.

* * *

1464 Manual CCC-471's

A Accepting Manual CCC-471's

Manual CCC-471's shall only be taken under the following situations. Manual CCC-471's *--shall be taken according to subparagraph 24 A, **only** if the:--*

* * *

- automated system is **not** available
- crop or crop type does **not** exist in the county crop table and fewer than 3 pay groups are available to be selected for the producer.

B Loading Manual CCC-471's

County Offices should maintain all manual CCC-471's in a pending file and review the file periodically to determine which CCC-471's can be loaded in the automated system.

Manual CCC-471's shall be loaded **immediately** when the automated system or crop data is available.

1465 Continuous Coverage and Selected Crops

A Continuous Coverage

* * *

There are 2 ways to add crops to a continuous coverage application:

- process the continuous coverage application and then add the additional crops on a separate CCC-471; the producer must sign CCC-471 with additional crop records
- delete the continuous coverage application and then load one CCC-471 with all crops the producer wants to have covered; the producer must sign CCC-471.

Note: Deleting a continuous coverage crop will delete **all** continuous coverage crops.

B Selected Crops

After crops have been selected through continuous coverage or on a new CCC-471, County Offices shall **not** delete any crop unless:

- the crop was selected in error
- instructed to do so by the procedure in paragraph 1462.

An “S” indicator next to the crop indicates the crop has been selected and fees have been paid by the producer. All crops within the pay group will be eligible for NAP.

***--1466 Incorrect Crop, Crop Type, or Producer**

A Incorrect Crop or Crop Type Is Selected

When an incorrect crop or crop type is selected and printed on CCC-471 and the producer is still in the office, re-access application, delete the incorrect crop or crop type and add the correct crop or crop type.

If the County Office does **not** handle an incorrect crop or crop type in this manner, additional documentation is required from the County Office, including:

- why the incorrect crop was selected
- how the County Office “knows” the crop or crop type selected is incorrect.

Note: Additional documentation does **not** apply if the crop or crop type was selected according to paragraph 1462.

When the producer signs CCC-471, item 12A, they are certifying that **all information on CCC-471 is correct**, including the selected crops, types, intended uses, and planting periods, and that the producer’s intent is to have coverage for the selected crops.--*

Subsection 4 Grazing Crops

1756 Grazing Loss Acreage

A Overview

The Grazing Loss Acreage Screen will be displayed when a grazing crop is selected on the Crop Selection Screen.

B Example Grazing Loss Acreage Screen

Following is an example of the Grazing Loss Acreage Screen.

*--

Grazing Loss Acreage		
Year: 2013	State: Mississippi	County: Coahoma
Producer: PRODUCER, ANY 1		
Unit: 1716	Pay Crop/Type: WHEAT/002	Planting Period: 01
Crop Name: WHEAT	Crop Type: HARD RED SPRING (HRS)	Intended Use: Grazing (GZ)

1756 Grazing Loss Acreage (Continued)

C Field Descriptions and Actions

The following table provides the field descriptions and actions for the Grazing Loss Acreage Screen.

Field/Button	Description	Action
Total Planted Acres	Total certified planted acres for the crop from the acreage report.	
Total Prevented Acres (Annual planted crops only .)	Total certified prevented acres for the crop from the acreage report.	
Ineligible Planted Acres	Manual entry.	Not required. Enter planted acres that were reported on the acreage report that are not eligible for NAP.
Ineligible Prevented Acres (Annual planted crops only .)	Manual entry.	Not required. Enter prevented acres that were reported on the acreage report that are not eligible for NAP.
Save & Continue	Grazing "AUD" Loss Calculations Screen will be displayed. See paragraph 1757.	
Back	Crop Selection Screen or Application for Payment Summary Screen will be displayed. See paragraph 1706 or 1758.	
NAP Main Menu	Main Menu will be displayed. See paragraph 1523.	

***--Note:** Prevented planting fields are **only** applicable for crops listed in subparagraph 1757 D.--*

1757 Grazing “AUD” Loss Calculations (Continued)

C Field Descriptions and Actions (Continued)

Field/Button	Description	Action
Carrying Capacity (Continued)		
Federal – Acres	Manual entry.	Enter the number of Federal acres for the selected carrying capacity.
Federal – Name of Lessor	Manual entry.	If Federal acres were entered, enter the name of lessor of federal acres.
State – Acres	Manual entry.	Enter the number of State acres for the selected carrying capacity.
State – Name of Lessor	Manual entry.	If State acres were entered, enter the name of lessor of State acres.
Add Carrying Capacity	Adds the selected carrying capacity to the Application for Payment. The Grazing “AUD” Loss Calculations Screen will be redisplayed.	
Cancel Add	Removes all entered data.	
Grazing Loss Data		
Stage Acres	Carrying capacity data that is already entered on the Application for Payment.	
COC Adjustment Factor		
COC Loss Factor		
COC Assigned		
Action	Allows for modification/deletion of existing carrying capacity data. If “Edit” is selected, the data is redisplayed in the Carrying Capacity section. If “Delete” is selected, the Delete Carrying Capacity Screen will be displayed. See paragraph 1757.5.	
Buttons		
Continue	Data will be saved and the Crop Selection Screen or Application for Payment Summary Screen will be displayed. See paragraph 1706 or 1758.	
Back	The previous screen will be displayed.	
NAP Main Menu	Main Menu will be displayed. See paragraph 1523.	

*--Note: Prevented planting fields are **only** applicable for crops listed in subparagraph D.--*

***--1757.5 Deleting Carrying Capacity**

A Overview

The Delete Carrying Capacity Screen provides users the ability to confirm deleting a carrying capacity.

B Example Delete Carrying Capacity Screen

Following is an example of the Delete Carrying Capacity Screen.

Delete Carrying Capacity

Year: 2012 **State:** Mississippi **County:** Coahoma
Producer: PRODUCER, ANY 1

Pay Crop/Type: BARLEY/002
Planting Period: 01
Unit: 624
Carrying Capacity: 5.00
Grazing Period Days: 90
Share: 40.00%
Intended Use: Grazing
Practice: Non-Irrig

Confirm Deletion of this Carrying Capacity?

C Action

CLICK “**Confirm**” to delete the data for the selected carrying capacity. Data for the selected carrying capacity will be deleted from the Application for Payment.--*

1757.5 Deleting Carrying Capacity (Continued)

***--D List of Grazed Forage Crops Eligible for Prevented Planted**

Following is a list of annually grazed forage crops that are eligible for a prevented planted payment under NAP.

Crop Code	Crop	Type	Intended Use	Pay Crop	Pay Type

***--Subsection 5 Forage Crops**

1771 Special Forage

A Overview

Forage crops have special rules if coverage was bought for a crop that was intended to be mechanically harvested but the actual use of the acreage (or portion thereof) was grazed.

The following table provides a list of forage crops.

Crop	Crop Code	Crop Type	Intended Use	Pay Crop	Pay Type
Alfalfa	0027		FG, SD	0027	001
Barley	0091	All types	FG	0091	001
Birdsfoot/Trefoil	0355		FG, SD	0102	001
Clover	0265	All types	FG, SD	0102	001
Forage Soybean/Sorghum	0125		FG	0125	001
Grass	0102	All types	FG, SD	0102	001
Kochia (Prostrata)	2002		FG, SD	2002	001
Lespedeza	0273		FG, SD	0102	001
Millett	0080	COM	FG	0080	001
		DOP			
Mixed Forage	0296	AGM	FG, SD	0296	001

Speltz	0131		FG	0131	001
Triticale	0158		FG	0158	001
Vetch	0435	All types	FG, SD	0102	001
Wheat	0011	All types	FG	0011	001

The Special Forage Screen will be displayed when a forage crop is selected on the Crop Selection Screen.

B Example Special Forage Screen

Following is an example of the Special Forage Screen.

*--

Special Forage

Year: 2013 **State:** Mississippi **County:** Any

Producer: Producer, Any

Unit: 1 **Pay Crop/Type:** WHEAT/002 **Planting Period:** 01

Crop Name: WHEAT **Crop Type:** HARD RED SPRING (HRS) **Intended Use:** Forage (FG)

Share: 100.00% **Practice:** Non-Irrig

Choose which of the following applies:

- All acres of this crop were mechanically harvested (this includes prevented planted acres for select crops).
- All acres of this crop were 100 percent grazed, AND history requirements were met for determining loss (this includes prevented planted acres for select crops).
- Some of the acres of this crop were mechanically harvested and some grazed, AND the grazed acreage met the history requirement for determining loss (this includes prevented planted acres for select crops).
- Some of the acres of this crop were mechanically harvested and some grazed for which the grazed acreage did not meet the history requirements for determining loss (this includes prevented planted acres for select crops).
- All acres of this crop were 100 percent grazed, AND the history requirements were not met for determining loss (this includes prevented planted acres for select crops).

C Field Descriptions and Actions

The following table provides the field descriptions and actions for the Special Forage Screen.
*--

Field/Button	Description
All acres of this crop were mechanically harvested (this includes prevented planted acres for select crops).	The production for this crop was either: <ul style="list-style-type: none"> • prevented from being planted • 100 percent harvested based on its intended use • abandoned.
All acres of this crop were 100 percent grazed, AND history requirements were met for determining loss (this includes prevented planted acres for select crops).	One hundred percent of the acreage was grazed instead of being mechanically harvested as intended, and the history requirements for determining the loss based on the intended method of mechanical harvest were met according to subparagraph 194 F or 194.5 E.
Some of the acres of this crop were mechanically harvested and some grazed, AND the grazed acreage met the history requirement for determining loss (this includes prevented planted acres for select crops).	Some of the acreage was grazed for which the history requirements were met for determining the loss based on the intended method of mechanical harvest according to subparagraph 194 F or 194.5 E, and some of the acreage was mechanically harvested as intended.
Some of the acres of this crop were mechanically harvested and some grazed for which the grazed acreage did not meet the history requirements for determining loss (this includes prevented planted acres for select crops).	Some of the acreage was 100 percent grazed for which the history requirements were not met for determining the loss based on the intended method of mechanical harvest according to subparagraph 194 F or 194.5 E, and some of the acreage was mechanically harvested as intended.
All acres of this crop were 100 percent grazed, AND the history requirements were not met for determining loss (this includes prevented planted acres for select crops).--*	One hundred percent of the acreage was grazed instead of being mechanically harvested as intended, and the history requirements for determining the loss based on the intended method of mechanical harvest were not met according to subparagraph 194 F or 194.5 E.
Continue	See subparagraph D for additional information.
Back	Crop Selection Screen or Application for Payment Summary Screen will be displayed. See paragraph 1706, 1718, or 1758.
NAP Main Menu	Main Menu will be displayed. See paragraph 1523.

1771 Special Forage (Continued)

D Action

*--The following table describes the result after 1 of the options on the Special Forage Screen is selected and "Continue" is clicked.

IF user selects...	THEN the...
"All acres of this crop were mechanically harvested (this includes prevented planted acres for select crops)."	Yield Loss Acreage Screen will be displayed. Load data according to Subsection 1.
"All acres of this crop were 100 percent grazed, AND history requirements were met for determining loss (this includes prevented planted acres for select crops)."	
"Some of the acres of this crop were mechanically harvested and some grazed, AND the grazed acreage met the history requirement for determining loss (this includes prevented planted acres for select crops)."	
"Some of the acres of this crop were mechanically harvested and some grazed for which the grazed acreage did not meet the history requirements for determining loss (this includes prevented planted acres for select crops)."	Yield Loss Acreage Screen will be displayed. Load data according to Subsection 1. PRESS " Save Crop " after data is loaded. Grazing "AUD" Loss Calculations Screen will be displayed. Load data according to Subsection 4.
"All acres of this crop were 100 percent grazed, AND the history requirements were not met for determining loss (this includes prevented planted acres for select crops)."--*	Grazing Loss Acreage Screen will be displayed. Load data according to Subsection 4.

Redelegations of Authority

This table lists the redelegations of authority in this handbook.

Redelegation	Reference
In routine cases, COC may redelegate, in writing, to CED the authority to act on, or sign, as applicable, CCC-576, Parts C and H.	39, 401
The redelegation must define what COC considers routine.	
COC may redelegate, in writing, to CED and PT, the authority to complete and sign automated CCC-452's and CCC-452 Manuals.	251, Ex. 25

Prevented Planting for 2007 and Future Years

A Unit Equals 1 Entire Farm

The following:

- example shows a unit composed of 1 farm with planted acres and approved prevented planted acreage that meets requirements in 2-CP, paragraph 24
- table shows the current year reported prevented planted acres, approved prevented planted acres, and planted acres for the farm/unit

Year	Farm/Unit	Reported Prevented Planted Acres	Approved Prevented Planted Acres <u>1/</u>	Planted Acres
2007	Farm	125.00	100.00	100.00
	Unit	N/A	100.00	100.00

--1/ Approved prevented planted acres that meet requirements of 2-CP, subparagraph 24 K.--

- shows the calculation for determining the number of prevented planted acres eligible for payment on the unit.

2007 planted acres + approved prevented planted = total intended for planting.

$$(100.00 \quad + \quad 100.00 \quad = \quad 200.00)$$

Total intended for planting x 35 percent = disaster level.

$$(200.00 \quad x \quad .35 \quad = \quad 70.00)$$

Determined prevented planting - disaster level = prevented planting for payment.

$$(100.00 \quad - \quad 70.00 \quad = \quad 30.00)$$

Note: 30.00 prevented planted acres qualify for payment on the unit.
