“The USDA Farm Service Agency delivered \$424.9 million in federal program payments and loans to Oklahoma farmers and ranchers during FY 2008. Oklahoma’s agriculture industry and rural economies benefit greatly from farm program funds delivered through the tireless efforts of our dedicated employees and locally elected County Committees.”

Commodity Program Payments: \$136.8 million

Oklahoma producers received substantial monetary support during FY 2008 in the form of commodity and price support program payments.

\$123,978,325 - Direct and Counter Cyclical Program (DCP) Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. Counter-cyclical payments are made when the effective price for eligible commodities is less than the target price.

\$12,664,158 - Commodity Loans are available to eligible producers who use crops as collateral. The Commodity Credit Corporation (CCC) makes loans for eligible commodities that are farm or warehouse stored.

\$13,244 - Loan Deficiency Payments (LDPs) benefit producers who agree to forgo a commodity loan in return for a payment on the eligible commodity. LDP provisions allow compensation when market prices are low, as long as the producer maintains beneficial interest in the commodity.

\$191,418 - Farm Storage Facility Loans (FSFL) The Commodity Credit Corporation (CCC), through FSA, may make loans to producers to build or upgrade farm storage and handling facilities for eligible commodities.
