**Using FSA-925-1, Estimated Livestock Forage Disaster Program Payment Calculation Worksheet**

Approved by: Deputy Administrator, Farm Programs

**1 Overview**

**A Background**

Livestock producers who suffered qualifying livestock grazing losses because of drought and fire during the 2010 calendar year could begin applying for benefits on January 4, 2010. The web-based LFP payment software is **not** yet available. A manual payment process has been developed, and County Offices may begin issuing manual LFP payments as of **April 9, 2010**.

FSA-925-1 (09-25-09) was provided to assist County Offices in calculating LFP payment amounts for 2008 and 2009 calendar year grazing losses until the automated payment software is deployed. Enhancements have been made to FSA-925-1. County Offices shall use revised FSA-925-1 (04-09-10) to assist County Offices in calculating any remaining LFP payment amounts for 2008 and 2009 and to calculate 2010 calendar year grazing losses until the automated payment process is deployed.

**Note:** County Offices are not required to use revised FSA-925-1 to recalculate existing 2008 and 2009 LFP payments already issued. When the automated payments software is released, payments will be calculated using the revised FSA-925-1 calculation.

**B Purpose**

The notice:

- informs State and County Offices that revised FSA-925-1:
  - shall be used by County Offices to calculate LFP payment amounts for eligible livestock producers until the automated payment process is deployed
  - will be provided to State and County Office as an Excel spreadsheet on DAFP's Intranet site at <http://fsaintranet.sc.egov.usda.gov/dafp>
- provides instructions for completing manual FSA-925-1
- obsoletes Notice LDAP-14.

### 2 Completing FSA-925-1

#### A Completing FSA-925-1

FSA-925-1 shall be used by County Offices to calculate LFP payment amounts for eligible livestock producers until the automated payment process is deployed.

A new FSA-925-1 shall be completed for an eligible livestock producer each time the drought intensity level changes for a county for a specific type of grazing land or a new type of grazing land becomes eligible for LFP that was not previously eligible.

**Example 1:** In calendar year 2010, County A rated D2 drought intensity for at least 8 consecutive weeks during the normal grazing period for small grains. FSA-925-1 was completed for Producer A and the producer received a 1 month payment. Later on during the normal grazing period for small grains, County A rated D3 drought intensity for at least 1 day during the normal grazing period for small grains. Producer A is eligible for an additional 1 month payment for small grains. A new FSA-925-1 needs to be completed to calculate Producer A's payment based on the new D3 drought intensity rating.

**Example 2:** In calendar year 2010, County A rated D2 drought intensity for at least 8 consecutive weeks during the normal grazing period for small grains. FSA-925-1 was completed for producer A and the producer received a 1 month payment. Later on during the year County A rated D3 drought intensity for at least 1 day during the normal grazing period for native pasture which has a different normal grazing period than small grains. Producer A is eligible to apply for a 2 month payment for native pasture. A new FSA-925-1 needs to be completed to calculate Producer A's payment based on the D3 drought intensity rating for native pasture.

FSA-925-1 will be posted to the DAFP Intranet site at <http://fsaintranet.sc.egov.usda.gov/dafp>.
